PROFILE

Senior Software Engineer with 5+ years of experience building scalable enterprise applications across web, client-server, and hardware-integrated environments. Strong expertise in C#, ASP.NET Core, Web API, Angular, React, Entity Framework Core, and WinForms. Experienced in modular architecture, Plugin Architecture, gRPC, SignalR, and multithreaded applications, with a focus on maintainable and reliable software solutions.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Everi Holdings Inc. | Apr 2024 – Present

- Developing next-generation kiosk and ATM solutions using C#, .NET Core, Angular, and hardware-integrated technologies.
- Designed modular plugin architecture and reusable components for scalable hardware integration.
- Implemented gRPC and SignalR communication across distributed application components.
- Developed multi-threaded and real-time workflows for reliable hardware interaction and responsive applications.
- Troubleshoot complex integration, state-management, and production issues across distributed components.

Software Engineer I & II

Aspire Systems | Oct 2020 – Mar 2024

- Developed scalable full-stack and enterprise applications using C#, ASP.NET Core, Web API, React.js, MySQL, SQL Server, and JavaScript.
- Designed and implemented RESTful APIs, backend modules, and optimized SQL queries to improve application performance and reliability.
- Developed and customized enterprise content management solutions using M-Files VAF and the M-Files UI Extension Framework.
- Built reusable frontend components and UI customizations while following SOLID principles and clean coding practices.
- Participated in Agile development, peer programming, code reviews, and production issue resolution.

Intern

Aspire Systems | May 2020 – Oct 2020

- Contributed to web application development using MVC, C#, MySQL, HTML, CSS, and JS.
- Implemented backend features, authentication, and database functionality.
- Participated in testing, code reviews, and Agile development activities.

HIGHLIGHTS OF QUALIFICATION

- 5+ years of professional software development experience with strong expertise in C# and the .NET ecosystem.
- Strong backend experience with .NET Core, ASP.NET Core, Web API, REST APIs, Entity Framework, and SQL.
- Hands-on experience building hardware-integrated kiosk and ATM applications using Angular, WinForms, Electron, gRPC, and SignalR.
- Experience designing modular/plugin-based architectures and reusable software components.
- Strong understanding of multithreading, asynchronous programming, distributed communication, and real-time application workflows.
- Full-stack development experience with Angular, React.js, TypeScript, JavaScript, HTML, and CSS.
- Experience with MySQL and SQL Server, including query optimization and database-driven applications.
- Experienced in SOLID principles, clean code, code reviews, Agile methodologies, and production troubleshooting.
- Enterprise application experience across kiosk platforms, content management systems, web applications, and automation tools.

SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL

Backend Technologies: .NET Core, ASP.NET Core, Web API, Entity Framework Core, REST APIs

Frontend Technologies: Angular, RxJS, Signals, React.js

Distributed Systems & Communication: RESTful, gRPC, SignalR, Multithreading

Architecture & Design: Clean Architecture, SOLID Principles, Design Patterns, Plugin Architecture, Modular Architecture

Databases: MySQL, SQL Server

Desktop & Application Platforms: WinForms, Electron

Development Tools: Git, GitHub, Azure DevOps

EDUCATIONAL BACKGROUND

Bachelors in Mechanical Engineering

Sri Shakthi Institute of Technology | Aug 2016 – May 2020 | CGPA: 7.8/10.0

LANGUAGE

English, Tamil (Native)
